SAFE HARBOR STATEMENT

We make certain statements and reference other information in this presentation that are “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995 (“PSLRA”). The PSLRA provides a forward-looking statement safe harbor under the Securities Act of 1933 and the Securities Exchange Act of 1934. These statements discuss our intentions, beliefs, projections, estimations, or forecasts of future events and financial performance. They involve uncertainties and known and unknown risks and other factors that may cause actual results, activity levels, or performance to materially differ from those in or implied by the forward-looking statements.

We discuss factors that could cause our actual results to differ materially from those we project, forecast, or estimate in forward-looking statements in further detail in Selective’s public filings with the United States Securities and Exchange Commission. We undertake no obligation to publicly update or revise any forward-looking statements – whether as a result of new information, future events or otherwise – other than as the federal securities laws may require.

This presentation also includes certain non-GAAP financial measures within the meaning of Regulation G, including “non-GAAP operating earnings per share,” “non-GAAP operating income,” “non-GAAP operating return on equity,” and “adjusted book value per share.” Definitions of these non-GAAP measures and a reconciliation to the most comparable GAAP figures are available in our Annual Report on Form 10-K and our Supplemental Investor Package, both found on our website www.selective.com under “Investors/Reports & Earnings.” Our commentary references non-GAAP measures we and the investment community use to make it easier to evaluate our insurance business. These non-GAAP measures, however, may not be comparable to similarly titled measures used outside of the insurance industry. Investors are cautioned not to unduly rely on these non-GAAP measures in assessing our overall financial performance.

FOCUS ON ROE AND GROWTH IN BOOK VALUE PER SHARE

Generating non-GAAP operating ROE in line with our long-term target**

Superior growth in book value per share

Expected higher total shareholder returns over time

*Book value per share decreased 17% for 2022 compared to 2021 primarily due to increased net unrealized losses. Adjusted book value per share** increased 5% for 2022 compared to 2021.

**Refer to "Safe Harbor Statement" on page 2 of this presentation for further detail regarding certain non-GAAP financial measures

PROGRESS THROUGH IMPACT

SELECTIVE
INSURANCE®

OUR APPROACH TO SUSTAINABILITY

OUR PRIMARY OBJECTIVES ARE TO:

- Help our customers put their lives and businesses back together after experiencing a covered loss
- Help make our customers and communities safer
- Support economic growth by providing capital that protects against covered losses and allows businesses to invest confidently in their operations

KEY SUSTAINABILITY ACCOMPLISHMENTS:

- Achieved an “AA” rating from MSCI
- Built a solar facility at corporate headquarters that can generate approximately 5M kWh of energy that we sell to others
- Continue sharing our approach to climate-related risks and opportunities through the publication of our third Task Force on Climate-related Financial Disclosures.

Sustainability initiatives are embedded into Selective’ business. We aim to deliver significant value over time to our customers, distribution partners, employees, and shareholders.
